

Leading Innovative Change

Program Overview

Entrepreneurial and competitive leaders must consistently ideate, innovate, and champion new ideas. In Leading Innovative Change, you will examine and apply proven frameworks and tools to capitalize on new opportunities to strengthen your competitive advantage. Berkeley-Haas professors, recognized worldwide for their forward-thinking research and thought leadership, guide you to innovate your business model and reinvigorate your leadership approach. You will strengthen your ability to foster innovation, transform your organization, drive new levels of growth, and sustain success through continual assessment and reinvention. Become a Change Agent.

Apply Berkeley's 4-phase cycle to your company's Innovative Process

Understand your role in the Innovation process and identify a project aligned to key priorities

Identify market-driven opportunities and internal innovation opportunities that drive clear ROI

Identify new service offerings wrapped around existing products, new market segments, or new internal processes

Understand the role of organizational culture in successful implementation of innovative ideas and how to successfully navigate culture

Overcome organizational resistance and blockers by developing a communications strategy based on effective storytelling

Understand, and take advantage of, your personal leadership style to lead innovative change more effectively

Create organizational momentum for innovative ideas by learning how to communicate the vision and generate enthusiasm

Leading Innovative Change

Key Conceptual Models

- ✓ **The Berkeley Innovation Process:** An iterative, four-part model for generating and implementing innovative ideas to improve business performance: Observations, Insights, Ideas, and Experiments.
- ✓ **Ethnographic Interviewing:** A customer-centric investigative process geared to uncover deep wishes, needs, and pain points.
- ✓ **Insight Generation Tools:** Empathy Maps and Customer Profiles provide structured means of deriving insight from interview data.
- ✓ **Value Proposition & Business Model Canvas:** Alex Osterwalder's renowned frameworks for generating internally and externally focused innovations.
- ✓ **Story Structure:** Narrative approaches to explaining and promoting an innovative idea to maximize persuasive power.
- ✓ **Culture as a Leadership Tool:** A model for understanding organizational culture and engineering values supportive of innovation.

Additional Program Features

- ✓ **Personal Assessment:** The Kolb Learning Styles Inventory (LSI) assesses how participants process and share information; essential to promoting effective creative collaboration with others.
- ✓ **Video Critiques:** Interactive dramatizations model best practices and common mistakes related to Ethnographic Interviewing.
- ✓ **Video Demonstrations:** "Laying out the Business Model: An Introduction" illustrates the use of the Business Model Canvas for generating ideas.

Leading Innovative Change

Curriculum: Week by Week

MODULE

One: Seek First

Video Lectures: 65 Minutes
Assignments: 45 Minutes
Live Virtual Events: 90 Minutes

Two: Make Meaning

Video Lectures: 43 Minutes
Assignments: 60 Minutes

Three: Be Creative

Video Lectures: 65 Minutes
Assignments: 45 Minutes
Live Virtual Events: 90 Minutes

Four: Shift into Gear

Video Lectures: 50 Minutes
Assignments: 60 Minutes

Five: Transform Culture

Video Lectures: 56 Minutes
Assignments: 45 Minutes

Six: Communicate Change

Video Lectures: 87 Minutes
Assignments: 90 Minutes
Live Virtual Events: 90 Minutes

LECTURES [VIDEOS]

- The Case for Innovation
- The Process of Innovation
- Begin with Observation
- Ethnographic Interviews

- Sift for Insights
- Insight Generation Tools
- The Outer Business Model
- The Inner Business Model
- The Services Mindset

- Reframe for Meaning
- Divergence then Convergence
- Innovation and Learning Style
- Innovation and Teamwork
- Think, Act and Be Different
- Open Innovation

- See What Works
- Outward Experimentation
- Inward Experimentation
- When to Pivot
- Open Services Innovation

- The Role of Culture
- Culture as a Tool
- A Culture of Innovation
- Case Study: Kimberly Clark

- Storytelling Your Idea
- Test with a Story
- Tell a Better Story
- Storytelling with Impact
- Case Study: Apple, Nespresso

KEY LEARNING

Module 1 explains the role and incredible value of innovation in the enterprise. It introduces first principles of innovation: why, when, where and what is involved. The module then begins a deep dive into the practical challenges of how: How to plan and execute strategies for innovative change in your organization.

Module 2 branches to the the second phase of the Berkeley 4-Phase Cycle of Innovation: Insight. You'll learn how to mine observational data for opportunities that unlock value. Reflecting on what you observed in Module 1, you'll discover what it means and how you can use it.

Module 3 breaks into the exciting third phase of the Berkeley 4-Phase Cycle of Innovation: Ideas. You'll learn how to reframe meaning you discovered in Module 2, in order to turn problems and needs into unprecedented business opportunities. Because the Ideas quadrant of the Cycle focuses on cognitive powers, Module 3 also introduces you to learning styles. How you naturally perceive challenges and opportunities; and how you work with others on solutions.

Module 4 guides you through the final phase of the Berkeley 4-Phase Cycle of Innovation: Experiment. You'll learn how transform bold ideas into tangible things that can be experienced and evaluated by those who stand to benefit. Experiment takes you to the edge of acceptance, production and implementation.

Module 5 pushes back the boundaries of innovation to create a cultural context for change. You'll be reintroduced to the structure and meaning of corporate culture; and given examples of cultures that deliberately spawn innovation.

Module 6 is a gateway to implementation. By now you have learned the concepts and mechanics of leading innovation change, with one exception. You haven't yet mastered the art of sharing your bold ideas with colleagues, partners and customers. That happens now.

* Module = 1 Week **Live Events may be subject to change
NOTE: Orientation Pre-Requisite Work (90 minutes) and Final Presentation at end of program (90 minutes).

Leading Innovative Change

Project Examples

| NAME | DESCRIPTION | PROJECTED BUSINESS IMPACT | PROJECTED FINANCIAL IMPACT |
|---------------------------------|--|---|----------------------------|
| Flow Cytometry | A Director of Research and Development at a large healthcare company redesigned their instrument interface to make it more disease interpretation oriented, and provide more useable information, as a result. | Increased Efficiency 30% | \$5,000,000 |
| Milling Solution | A Regional Director from a large industrials company designed a solution that reduced the time of production for their their milling process without increasing costs. | Increased Customer Loyalty/Satisfaction 50% | \$2,000,000 |
| Online Finance | A Principal Leader at a major consumer products business implemented an online option, enabling customers to pursue financing without having to speak to a sales representative. | Increased Quality 5% | \$25,000,000 |
| Roast and Pack at Source | A General Manager from an agriculture business shortened their supply chain process by combining their product roasting and packaging in the same location. | Increased Customer Loyalty/Satisfaction 80% | \$10,000,000 |
| Unified Information Base | A Director of Technology and Strategy at a leading technology company consolidated multiple mobile apps to allow people to see a complete end-to-end view of the company's entire information base. | Increased Employee Productivity 8% | \$5,000,000 |
